

Aelita Li

15221824019 | 15221824019@163.com | Shanghai | 7 Years in Finance & Analytics | M.S. in Applied Statistics, Tongji University

Portfolio: <https://personal-portfolio-d2g79lhgp3618d992.webapps.tcloudbase.com>

Finance and analytics professional combining FP&A, business and data analysis, supporting business decisions and resource allocation with KPI frameworks, BI models and forecasting.

CORE SKILLS & CERTIFICATIONS

Business Analysis: KPI framework design, business driver analysis, resource allocation
Financial Analysis: Rolling forecasts, scenario analysis, budgeting, management/consolidated reporting
Skills & Certifications: Excel | Power BI | SQL | Python | CPA | ACCA Passed | Tax Advisor | Intermediate Accountant | CET-6
Statistical Modeling: Time-series analysis, machine learning, deep learning; experience with ARIMA, LGBM, LSTM, TFT and SAC

WORK EXPERIENCE

Wedo Technology (FinTech) | Senior Financial Analyst 2024.09 – 2026.08

Overseas FP&A and business analysis, using KPI frameworks, forecasting models and BI analytics to support decisions.

- Overseas Business Analysis & FP&A:** Conducted operating reviews, budgets/forecasts and actual-vs-budget analysis across business volume, resource input, cost structure and efficiency, identifying key drivers to support resource allocation.
- Business Analytics & BI Modeling:** Built Power BI models from scratch; defined KPIs, cost capture and allocation rules to link operating and financial data for monitoring, anomaly detection and efficiency analysis.
- Forecasting & Scenario Analysis:** Built parameterized long-term cost forecasts and scenarios based on business and cost drivers; total forecast variance stayed within 5%.
- Performance & KPI Monitoring:** Helped build and refine daily KPI dashboards, validating metrics and tracking anomalies to improve intra-month forecasts and monitor performance.

China Minsheng Investment Group | GL Accountant (Group Financial Analysis) 2021.10 – 2024.06

- Financial Analysis:** Prepared monthly and annual analysis based on consolidated statements, covering YoY/MoM and abnormal movements in key accounts and explaining changes with major events.
- Major Events & Risk Analysis:** Supported investment impairment analysis by validating subsidiary data and tracking asset-value changes and impairment drivers for financial analysis and audit communication.
- Financial Data Governance:** Reviewed historical ledgers and accounting records, resolving and adjusting approximately **RMB 180M** in historical liabilities.
- Reporting Optimization:** Organised data sources, field definitions and logic for consolidated reports and schedules, improving analytical templates and data-processing efficiency.

Nanyan Group | GL Accountant / FAFULI | Finance Assistant 2020.07 – 2021.10 / 2019.01 – 2020.07

- Financial Reporting & Data:** Managed accounting and financial/management reporting, built standardized cash, revenue and reconciliation templates, and cleaned historical intercompany and receivable data.
- Process Automation & Systems:** Built automated calculation and reconciliation tools, supported business, invoicing and banking system requirements, and led the rollout of WeChat self-service invoicing.

EDUCATION

Tongji University 2024.09 – 2026.06

M.S. in Applied Statistics, Part-time

Major-course average **94.5**; thesis nominated for **Outstanding Graduate Thesis**.
Focused on statistical modeling, machine learning and reinforcement learning, time-series analysis and quantitative analysis.

Shanghai University of International Business and Economics 2015.09 – 2019.06

B.A. in International Accounting

GPA **3.61/4.0**; university scholarships for 7 consecutive semesters; all ACCA exams passed.

COMPETITIONS & AWARDS

2024 National Graduate Industrial, Economic & Financial Big Data Modeling Competition — National Third Prize

SARIMA/LSTM time-series forecasting and result analysis.

2025 National Student Statistical Modeling Competition — Shanghai Third Prize

Developing hedging environment for SAC model and result evaluation.

2017 Pigai Internet Cup National College English Writing Competition — National Final First Prize

KEY PROJECTS

Budget Management & Process Redesign | Project Leader 2025.08 – 2025.09

- Process Redesign:** Standardized rules and moved offline budget collection/review to Google Sheets for departmental collaboration, adding version control to improve efficiency.
- Analytics Dashboard:** Integrated budget data in Excel + Power BI to build analysis dashboards and budget reports, providing inputs for daily cost forecasting during the budget cycle.

Power BI Database & Analytics Model | Core Contributor 2024.09 – 2025.08

- Allocation Model:** Built cost allocation and visual analytics from scratch, defining cost data, business metrics, allocation rules and validation standards.
- Analytics Dashboard:** Reworked database and analytical logic in Excel + Power BI, building dashboards with parameterized forecasting and scenario analysis.

Multimodal Anomaly Detection for Infinity Nikki | Independent Researcher 2025.09 – 2026.03

- Research Framework:** Tongji M.S. capstone for game operations; built a multimodal sentiment monitoring and anomaly-warning framework to detect user-feedback shifts and quantify anomaly drivers.
- Data & Methods:** Processed **1.25M posts** and **1.04M images** from Weibo; built a **19-dimensional monitoring system** using time-series decomposition, TFT anomaly detection, topic modeling and image clustering, with dashboard outputs.
